## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1 – 7 and 10 - 13 are rejected under 35 U.S.C. 102(a) as being anticipated by U.S. Patent No. 6,832,086 (Powers et al.).

With respect to claims 1 – 7 and 10 - 13 note Abstract, Col. 2, lines 9 – 55, Col. 3, lines 6 – 26, and Col. 5, line 3 – Col. 6, line 21. With respect to connectionless, note Col. 8, lines 44 – 55.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Powers et al. in view of U.S. Patent No. 6,477,585 (Cohen et al.).

Powers et al. teach the claimed device as shown above, except for the Notification Name, Notification Identifier and Notification Generation. However, Cohen et al. teaches such (see Col. 19, lines 19 – 24 and Col. 20, lines 45 – 54). It would have been obvious to one of ordinary skill in the art to use IDS and timestamps such is

notoriously old in the art. It would have been obvious to one of ordinary skill in the art to use IDs and timestamps wherever it was deemed necessary.

***Conclusion***
